If a proposed rezoning conflicts with the plan, the applicant must first request an amendment to the plan. The planning commission may allow the submission of a request for plan change simultaneously with a request for the rezoning of a parcel or parcels.

Section 4.05.0. Determination of Uses Not Listed

When a use is not specifically listed as a permitted or conditional use within a particular zoning district, the Planning Commission shall determine if the use is substantially similar in its character and external impacts to the already listed permitted and conditional uses. If the use can be determined to be substantially similar in its character and external impacts, it may be treated as a permitted or conditional use, as determined by the Planning Commission, until such time this code is amended appropriately. If the use cannot be determined to be substantially similar in its character and external impacts, it shall be considered prohibited. For lands annexed into the City of Trumann after the adoption date of this code, nothing in these regulations shall require any change in plans, construction, or designated use of a building under construction. This shall also apply to any building, not yet under construction, for which a valid approval exists that was issued by Poinsett County.

Section 4.07.0. Preservation of Minimum Lot Areas

Unless by a variance, no lot or yard area, or other open space, or off-street parking or loading space required may be reduced in dimension or area below the minimum requirements of the Zoning Code. No lot or division of property shall be approved that will result in a lot size or yard area reduced below the minimum requirements of this Code.

Section 4.08.0. Principal Structure on Lots

In residential districts only one principal structure and its customary accessory structures may be erected on any lot unless otherwise provided in this Code. This shall not apply where multi-family residential is allowed by-right.

Section 4.09.0 Existing Lots and Lot Area

Any single lot or platted parcel of land, which was officially recorded prior to the adoption date of this code, that does not meet the requirements of minimum lot width or area specified for the zoning district in which it is located may be utilized for a single-family residence without approval of the Board of Adjustment. The required yards, courts, or usable open spaces shall not be reduced to less than seventy-five (75) percent of the dimensions required in the zoning district.

Any single lot or platted parcel of land which was built upon such that the building setback, yards, open space, building height, or location of parking or loading spaces, do not now comply with the requirements for the District in which it is located, may be utilized for a permitted use without approval of the Board of Adjustment. - A. Election Method: Prior to the annexation election, the Planning Commission may prepare a Zoning Plan for the area to be annexed based upon the Comprehensive Plan/Land Use Plan. The City Council may elect to adopt this Zoning Plan upon annexation of the lands. If no action is taken, all lands shall be annexed as R-1.

The parking regulations for this district are handled in Article XII.

ARTICLE VI. COMMERCIAL DISTRICTS

Section 6.01.0. Purpose of Each District

6.01.01. Downtown Commercial District (C-1)

The C-1 District is the designation for the historic center of the community. A variety of retail, wholesale, professional, and governmental functions have developed in the district over the lifetime of the city’s history. The intent of the district is to encourage a diverse uses and building forms that sustain the historic character of downtown Trumann. This district is not intended to be used in or expanded to areas beyond Trumann’s traditional downtown.

6.01.02. General Commercial District (C-2)

This district is intended to serve the retail, office, and business needs of the community by providing for the compatible and convenient location of commercial establishments. The uses of this district are intended to serve both the needs of local residents and that of through highway traffic. Uses typically do not include permanent outdoor display of goods.

6.01.02. Outdoor Display Commercial District (C-3)

This is a district usually located along major highways or arterial streets, used primarily for the retailing of durable goods, implements, heavy appliances and vehicles; providing services and lodgings for transient visitors or diners; and for uses which because of their nature require open storage or display of goods or material; and which require large-scale advertising. As this district is generally located in close proximity to residential areas, the regulations are designed to permit development of enumerated uses but limited by standards and requirements that are intended to protect and preserve the abutting or surrounding residential districts, and to minimize potential traffic hazards.

Section 6.02.0. Permitted Uses

The permitted uses in each of the commercial districts are set forth in the following table. The following symbols, placed opposite a permitted use and underneath a commercial zoning district, shall have these meanings:

- “P” means that the listed use is permitted by right in that district.
- “CU” means that the listed use is permitted subject to approval as a conditional use per the requirements of Article XV.
- “X” means that the use is prohibited.

Section 7.04.0. Performance Standards

Any industrial use established in the City of Trumann after the effective date of these regulations shall conform to the performance standards as set forth hereunder:

7.04.01 Physical Appearance

The outdoor display of merchandise or vehicles of resale is prohibited except when in operable condition. The outdoor storage of merchandise, vehicles, equipment shall be suitably screened by a fence at least six feet (6') in height through which said materials, equipment, merchandise, and vehicles cannot be seen from the street.

7.04.02 Flammable or Explosive Materials

Any operation which involves the storage or use of highly flammable gases, acid, liquids, grinding processes or other inherent fire or explosive hazards shall provide evidence that such storage or use is in conformance with all relevant regulations and requirements of the State Fire Marshall and/or relevant federal regulations.

All outdoor storage facilities for fuel, raw materials, and products used in the manufacturing process or stored as inventory shall be enclosed by a solid fence or wall adequate to conceal such facilities, fuel, raw materials and products from adjacent residential and business districts; provided, however, that such fence or wall need not exceed ten feet (10') in height.

7.04.03 Sewage and Liquid Waste

No operation shall be carried on which involves the discharge into a sewer, water course or on the ground of liquid wastes of any nature, which are detrimental to normal sewage plant operation or

corrosive and damaging to sewer pipes and installations, or polluting to any water course above that level of pollution certified as acceptable by the Arkansas Department of Environmental Quality.

All materials or waste which might cause fumes or dust or which constitute a fire hazard or which may be edible by or otherwise be attractive to rodents or insects shall be stored outdoors only in closed containers.

7.04.04 Odor

The emission of odors that are generally agreed to be obnoxious to any considerable number of persons, shall be prohibited. Observations of odor shall be made at the property line of the establishment causing the odor. As a guide to classification of odor it shall be deemed that strong odors of putrefaction and fermentation tend to be obnoxious and that such odors as associated with baking or the roasting of nuts and coffee shall not normally be considered obnoxious within the meaning of this ordinance.

7.04.05 Vibration

All machines including punch presses and stamping machines shall be mounted as to minimize vibration and in no case shall such vibration exceed a displacement of three thousandths of an inch measured at the lot line. The use of steam or broad hammers shall not be permitted.

7.04.06 Glare and Heat

All glare, such as welding arcs and open furnaces shall be shielded so that they shall not be visible from the lot line. No heat from furnaces or processing equipment shall be sensed at the lot line to the extent of raising the temperature of air or materials more than five (5) degrees Fahrenheit.

7.04.07 Noise

No operation shall be carried on which involves noise in excess of the normal traffic noise of the adjacent street at the time of the daily peak hour of traffic volume. Noise shall be measured at the property line and when the level of such noise cannot be determined by observation with the natural senses, a suitable instrument may be used and measurement may include breakdowns into a reasonable number of frequency ranges. All noises shall be muffled so as not to be objectionable due to intermittence, beat frequency or shrillness. Noises which exceed ninety (90) decibels as measured at the property line shall be considered a nuisance.

Section 7.05.0. Parking

The parking regulations for this district are handled in Article XII.

ARTICLE VIII. AGRICULTURAL DISTRICTS

Section 8.01.0. Purpose of Each District

8.01.1. Agricultural (A-1)

The Agricultural District is created to prevent premature urban development of certain lands that eventually will be appropriate for urban use, until the installation of streets, utilities, and community facilities make orderly development possible. The Agricultural District is intended for agricultural uses with accompanying single-family residences as well as incidental accessory uses.

Section 8.02.0. Permitted Uses

The permitted uses in each of the residential districts are set forth in the following table. The following symbols, placed opposite a permitted use and underneath a residential zoning district, shall have these meanings:

Section 8.04.0. Parking

ARTICLE IX. PLANNED UNIT DEVELOPMENTS

Section 9.01.0. Purpose and General Provisions

The purposes of the Planned Unit Development district is to promote flexibility and innovation in design, in both small and large-scale developments, while encouraging the simultaneous development of multiple amenities beneficial to both the users of the development and the city as a whole. Planned Unit Developments are also intended for use in creative and innovative development of vacant in-fill parcels in the built-up areas of the city, and the incorporation of open space in developments.

In concept, the Planned Unit Development (PUD) is a combination of zoning designation and development plan. The approval process is designed to encourage innovation by the developer by allowing submittal of engineered plans, known as a Final PUD Plan, after approval of a Preliminary PUD Plan to rezone the property. Development must follow the approved Final PUD Plan exactly. Failure in this respect can result in revocation of the PUD. Although design innovation is encouraged, and flexibility is allowed, the PUD may not be used simply as a method of avoiding zoning regulations.

Section 9.02.0. Minimum Size and Use Criteria

PUD applications may be residential, commercial, industrial, mixed-use in nature. Mixed-use PUDs may incorporate multiple uses in a development, property, or single-structure.

The minimum size for an area to be developed as a PUD shall be five (5) acres.

Section 9.03.0. Development Standards

- A. Use Permitted: Permitted uses within a PUD shall conform to the permitted uses within the existing zoning district in which the PUD is being proposed, or/and shall be consistent with the general character of the land use classification of the subject property in the city's Land Use Plan, or/and be substantially similar to and compatible with adjacent property.
- B. Development Density: All plans shall clearly depict the proposed density by land use category. Residential density shall be depicted in the manner described in paragraph D, item 1 below titled "Residential Density". Non-residential density shall be expressed as Floor Area Ratio.
- C. Setbacks: Building setbacks will be designed in such a manner that they create a harmonious grouping of buildings, allow maintenance of streets and utilities, do not violate any safety codes including the Arkansas Fire Prevention Code, and do not restrict the provision of emergency or public services.
- D. Lot Size and Area Requirements: No minimum lot sizes are established. Housing and development can be clustered or otherwise concentrated or arranged in planned locations on the site to take advantage of natural features and topography. The following restrictions apply:

- 1. Residential Density

Residential density for any development shall not exceed the following standards as measured by dwelling units per developable acre (dua). Calculation shall not include areas devoted to surface streets and surface drainage improvements. This shall be computed by the equation below:

Housing Units / (Developable Land + Common Usable Open Space) = Residential Density

Single-Family:	7 dua
Single-Family Zero Lot Line:	8 dua
Duplex:	9 dua
Townhouses/Condominium:	11 dua
Multi-Family (1-2 stories):	18 dua
Multi-Family (3 stories or more):	24 dua
Mixed-Use with Multi-Family:	36 dua

- E. Common Usable Open Space: PUDs with exclusively residential land use shall designate at least fifteen (15) percent of the total development area to common usable open space.
- F. Common Usable Open Space – Future Phase Construction: If common usable open space and common space improvements required for a development are planned for construction in future phases, a performance bond shall be required. Prior to the sale of any lot, site, home or other structure, a bond of sufficient surety determined by the Administrative Official shall be posted with the City for completion of said common usable open space improvements. The amount of the bond shall reflect 150 percent of the Administrative Official’s estimate for completing the required improvements.
- G. Landscaping: All developments shall provide landscaping. Landscaping shall be designed to complement the site’s topography and create a discernible amenity for the development.
- H. Bills of Assurance, Covenants, Trusts, and Property Owners Associations: The developer shall create such legal entities as appropriate to undertake and be responsible for the ownership, operation, construction, and maintenance of private roads, parking areas, common usable open space, community facilities, recreation areas, buildings, lighting, security measures, and similar common elements. All legal instruments setting forth a plan or manner of permanent care and maintenance of such open space, recreational areas, and common owned facilities shall be reviewed by the City Attorney as to legal form and effect, and by the Planning Commission as to the suitability for the proposed use of the common owned facilities.

If the common owned facilities are deeded to a homeowner association or improvement district, the developer shall file with the approved Final Plat/Final PUD Plan a declaration of covenants and restrictions in the bill of assurance. The City of Trumann shall have the authority to require the creation of an improvement district instead of a homeowner/property owner’s association, if deemed necessary by the Administrative Official. The following is required:

1. The homeowner association or improvement district must be legally established before building permits are granted.
2. Membership/participation and fees must be mandatory for each property buyer and successive buyer in perpetuity unless allowed to be discharged by the City of Trumann.
3. The open space restrictions must be made permanent through a deed restriction.

4. The association or improvement district must be responsible for the maintenance of all common owned facilities covered by the agreement and for all liability, taxes, and other assessments.
 5. Homeowners/property owners must pay their pro-rata share of the initial cost and on-going maintenance, and the maintenance assessment levied by the association/district must be stipulated as a potential lien on the property or appropriate process if an improvement district.
 6. The association/improvement district must be able to adjust the assessment to meet changed needs.
- I. Responsibility for Open Space: Nothing in this Code shall be construed as assigning or assuming any responsibility or liability on the part of the City of Trumann, for maintenance of any private open areas, parks, or recreational facilities. A hold harmless clause shall be incorporated in the covenants conveying with the land to this effect. It shall be provided further, however, that when an owner of a Planned Unit Development desires to dedicate certain land areas to the City for public parks and recreational facilities, and the City approves the nature and location of such lands, and accepts the dedicated areas, the City shall be responsible for the operation and maintenance of these lands and properties. Acceptance of any lands shall require action by the City Council.
 - J. Private Street Conversion: Private streets that are requested to be converted to public ownership shall be required to be improved to city standards prior to dedication to the City. The owners will bear full expense of reconstruction or any other action necessary to make the streets fully conform to the requirements applicable to public streets, prior to dedication and acceptance. The owner shall not be compensated for any street dedicated to public use. Any street conversion shall be subject to a one-year maintenance bond.

Section 9.04.0. Review and Approval Types

The PUD approval process shall consist of two (2) forms of review procedure:

- A. Preliminary PUD Review and Approval
- B. Final PUD Plan and Approval
 1. Short Form: Developments contained on one-lot that are not intended for re-subdivision into additional lots.
 2. Long Form: Developments intended to plat property into two or more lots.

Section 9.05.0. Preliminary PUD Plan Review and Approval Procedure

- A. Pre-application Conference: Before submitting an application for PUD approval, the owner, authorized agent, or developer shall confer with the Administrative Official. The intent of this conference is to provide guidance to the applicant prior to incurring substantial legal and engineering expense in the preparation of plans. An additional purpose is to ensure proper

information is provided with a formal PUD application. The Administrative Official will discuss the applicant's potential application and inform the applicant of any perceived potential problems that might arise in the development process.

- B. The Preliminary PUD Plan shall consist of a site plan for the development without the submittal of an engineered site plan and construction plans. Approval of the Preliminary PUD Plan shall have the effect of rezoning the property.
1. Before an application can be considered, a complete application with the PUD application fee must be filed and paid with the Administrative Official.
 2. The Administrative Official shall review the application and provide comments to the applicant for revision of the plans. A public hearing for the Preliminary PUD Plan shall be set no later than sixty (60) days after filing the application. The procedures for rezonings or zoning amendments shall govern the process for arranging the public hearing.
 3. A public hearing shall be conducted. If the applicant requests deferral of a decision on the application to allow modification, the application which is deferred shall be subject to an additional public hearing to allow public comment. If the request for deferral is made at the same meeting at which the public hearing was conducted, the Planning Commission may allow the public hearing to be continued at the following regular meeting of the Planning Commission without being re-advertised. If the request for deferral is made after the Planning Commission meeting, a new public hearing and new notifications/advertising shall be required.
 4. Unless a deferral is requested by the applicant, the Planning Commission shall render a decision to approve, conditionally approve, or deny the application within sixty (60) days of the public hearing.
 5. To approve a Preliminary PUD Plan, the Planning Commission shall find the following:
 - a. The PUD provides public benefits that would not be achievable through the normal zoning regulations.
 - b. Adequate public utilities are already in place to service the property, or the developer has sufficient plans and private financial commitment in place to ensure adequate public utilities will be available to service the property.
 - c. The development will not impose substantial negative external impacts on or prevent the orderly development of adjacent property.
 - d. The development's land use is permitted in the underlying zoning district, is compatible with the city's Land Use Plan, or is substantially similar to adjacent property.
 - e. The development does not endanger the public health, welfare or safety.

- f. The development's design and intent is consistent with the purpose of the PUD regulations.
- 6. For any application that is conditionally approved by the Planning Commission, the applicant shall have ninety (90) days to submit modified plans. These plans shall be reviewed by the Administrative Official to determine if the modified plans comply with the Planning Commission's conditional approval. The Administrative Official shall provide a written report of his/her findings to the planning commission and city council. If the Administrative Official finds the modified plans do not conform to the Planning Commission's conditional approval, the application shall be referred back to the Planning Commission for review and shall not proceed for consideration to the City Council until approved by the Planning Commission. The city council will not consider any conditionally approved application for which modified plans have not been provided or any conditionally approved application where the modified plans have not been reviewed by the Administrative Official.
- 7. Approved and properly modified conditionally approved applications shall be forwarded to the city council for approval. The city council shall render a decision to approve or deny the application by an ordinance to rezone the property. The city council may also refer the application back to the Planning Commission for reconsideration and modification without an additional public hearing.

Section 9.06.0. Final PUD Plan Review and Approval Procedure

- A. The Final PUD Plan shall be either a Short Form or Long Form.
 - 1. Short Form PUD: Developments contained on one lot that are not intended for re-subdivision into additional lots. The Final PUD Plan shall consist of the Preliminary PUD Plan and submittal of engineered site plan and construction plans and meeting the submission requirements of Section 9.07.0 below.
 - 2. Long Form PUD: Developments intended to plat property into two or more lots. The first step in the process of preparing the Long Form Final PUD Plan is preparation and submission of a Preliminary Plat, which conforms to the procedures and requirements of the Trumann Subdivision and Development Code. An application for a Final PUD Plan shall not be accepted by the Administrative Official until and unless a Preliminary Plat for the property has been approved by the Planning Commission. The submission shall meet the requirements of Section 6 below.

The Final PUD Plan shall consist of the Preliminary PUD Plan and submittal of a Final Plat application. The Final Plat application shall be subject to the regulations and requirements of the Trumann Subdivision and Development Code; however, approval shall be subject to acceptance of the public dedication of streets, utilities, and other public facilities.

 - 2. The conditions causing the need for a Variance are unique to the property and are not applicable, generally, to other property within the same zoning classification.
 - 3. The literal interpretation of the provisions of this Code would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this Zoning Code.
 - 4. The alleged difficulty or hardship is caused by this Code and has not been created by the applicant or a previous owner of the property.

5. The granting of the Variance will not harm the public welfare, other property, or improvements in the neighborhood in which the property is located.

No variance may be approved that would allow a use that is not permitted or that is implicitly or expressly prohibited. The existence of a nonconforming use or structure shall not be used as grounds to justify approval of a variance. The Board of Adjustment may provide conditions on the approval of a variance. Violation of these conditions shall be considered a violation of this Zoning Code.

- D. Conditions of Variances: The Board of Adjustment may require such conditions or restrictions upon the construction, location, and operation of a Variance, as deemed necessary to secure the general objectives of this Code. Such conditions or restrictions may include, but shall not be limited to, provisions for the protection of adjacent property, the expiration of said Variance after a specified period of time, and off-street parking and loading requirements.
- E. Deadline for Board of Adjustment Decision: Within thirty (30) days after the close of the public hearing, the Board of Zoning Adjustment shall make a written finding of fact and submit its decision to the Administrative Official.
- F. Effect of Denial or a Variance: No application for a Variance that has been wholly or partly denied by the Board of Adjustment shall be resubmitted within a period of one (1) year from date of said denial.
